The Northwestern Catering Company,

On Randelph Street, Opposite the 1801, when he was commissioned a jus-City Hall,

The Finest of Its Kind in Chicago fifth street police court. His extensive and the West.

At this season of the year birthdays recognized leader among the Polish are in order, and while patriotic Americans were celebrating the birth of the nation the Northwestern Catering Company brought into life its new handsome home on Randolph street, directly opposite the City Hall, and west of Hooley's Theater. No expense has been spared in fitting up and decorating this Chicago's latest for bon vivants. The writer pauses at the entrance to admire the beautifully stained glass windows and on emerging into the buffet is struck with the perfect ensemble of the

The walls are tinted a rich cream colall around the cornices are well executed paintings of allegorical subjects. The other furnishings of the establishment are in perfect keeping; the bar, with its handsome plateglass background and mahogany counter, and the effect of the leaded glass in different places makes rich appearance.

It is needless to say that the cuisine, under the direction of a competent chef, is equal to any in the city.

The special brews of the Northwestern Brewing Company are on draft, and it is impossible to improve on these. In the cost of putting in asphalt strips fact, to sum up, the motto of the new four feet in width for the use of bicy undertaking is to turnish the best of everything, either solid or liquid, to its nue between the river and Jackson patrons, and the manager, Mr. Vonder Wall, will take special pains to see that the best of attention and the greatest possible comfort is afforded to the patrons of the place.

The Chicago Brewers' Association. backed by Corporation Counsel Thornton and City Collector Martin, has determined to make all outside brewers pay the city license of \$500 a year or quit doing business in the city.

Theodore Ochne and other members of the association have taken up the matter and are pushing it. They have found that outside brewers are only paying a beer bottler's license fee here, while the Chicago brewer who goes outside must meet all the local licenses be comes in contact with.

The city collector will demand from all the foreign brewers the \$500, and if payment is refused they will be compelled to cease doing business in Chi-

to practice." Mr. Glennon served as assistant special assessment attorney under Judges Horton and Brentano and later as assistant State's attorney under Judge Longenecker, remaining in the last named position until June 14. tice of the peace. Soon after he was appointed a police magistrate and served two years at the Armory. In June of this year Justice Glennon was reappointed and assigned to the Thirtyexperience as a police magistrate has amply fitted him for the office.

Few men have made a finer record than Justice M. A. LaBuy. He is a American people and is a scholar and gentleman besides.

Justice Bonnefol is better liked in Lake View than any man who ever held down the Sheffield avenue bench The reputation of Hon. J. J. Hennessey for honor and integrity gives to the town of Lake bench a prestige of which it is proud.

Justice Randall H. White is a man who courts very little notoriety. He is very popular with lawyers and is often mentioned for Superior Court judge.

Few of our old residents are more or, relieved with gilt monograms, while highly honored or more widely known than Hon. George W. Hotaling, one of

the most popular of justices. Justice A. V. Lee has a large number of admirers among the lawyers and

the people at large. George P. Foster is noted as one of the most painstaking and patient of justices. He has a high reputation for nonesty and integrity.

Commissioner of Public Works Me-Gann has received from Superintend ent of Streets Doherty an estimate of clists on both sides of Michigan ave street. In the estimate three different ways are suggested for doing the work. The asphalt strips, according to the figures submitted, will cost between \$5. 000 and \$9,000. Commissioner McGann favors having the work done in a substantial manner so that it will last for at least twenty years with proper re pairs. The plan of depressing the granite blocks and putting in a top layer of asphalt, it is expected, is the one which will be adopted. Commissioner Mc Gann expects the organized bicyclists to defray the expense of the improve ment and has invited representatives to meet him at his office next Monday morning at 11 o'clock to discuss plans.

At the present rate of progress it is not believed the public schools will be equipped with filters before Nov. 1, although the contract calls for the completion of the work Sept. 1. The George L. Squier Company, which has the contract for equipping all of the schools east of Ashland boulevard and on the outing of the Apollo Commandery, South Side, has not yet equipped one Knights Templar, on the trip to the building, according to the reports sent dells of Wisconsin Aug. 11 have for- in by the firm to Chief Engineer Watmally expressed their grateful appre- ers. The company is engaged in disciation of the many kindnesses tender- tributing the material and expects to ed them by the officers of the Chicago, go to work putting up the filters in a Milwaukee and St. Paul road to add few days. The Pasteur Company to their comfort and pleasure. George which has the contract for equipping H. Crandall of the Glen Cottage Hotel, all the remaining schools, sent notice Kilbourn, is also remembered with to Engineer Waters that it had equip words of grateful acknowledgment, ped seven schools and two branches The committee of arrangements includ- with filters in the neighborhood of Gared James Hitchcock, Albert E.
